Dear Applicant,

Thank you for your inquiry into European School of Esthetics' programs. A copy of our brochure and information package has been enclosed for your reference.

European School of Esthetics was established over 30 years ago and offers comprehensive and advanced programs available in the Beauty & Esthetics field. Our extensive theory and practical hands on instruction by fully licensed and certified educators makes us remarkably exceptional.

Please fill out the application form enclosed to enrol and secure a start date and submit it to us along with the registration fee.

Please feel free to contact the school with any questions you may have or to arrange for an interview or tour. For additional information on our school or programs, please visit our website at www.europeanschoolofesthetics.ca.

We look forward to meeting you.

Sincerely,

Doreen Maunder – Director

ABOUT EUROPEAN SCHOOL OF ESTHETICS

ESE, founded by medical professionals, over 30 years ago, offers one of the most complete and advanced programs available in the Beauty Therapy field. The work is demanding and requires discipline. Our training ensures that you are introduced to one of the fastest growing, exciting and rewarding businesses of the new millennium.

ESE motivates and encourages excellence in studies, develops maturity in behaviour and responsibility, provides skills for a successful career and promotion, and serves the industry by providing exceptionally well trained personnel.

At ESE, individual attention is provided to each student to help them reach their full potential. Practical experience will be gained in the teaching salon furnished with the latest in equipment and techniques. Students are given considerable practical experience in treatment and dealing with clients.

ESE provides small class size, with extensive practical training. Students benefit from training via lectures, extra-curricular lectures by guest speakers, demonstrations, and hands-on experience. We have a resource library that includes audio, video and printed material.
